

Joju Solar proud to support Sutton House Music Society...

Did you know under the Government's clean energy cash-back scheme a standard home solar PV installation (2.22kWp) on a south facing roof can give you a tax-free payment of over **£850** each year guaranteed for 25 years and savings on your electricity bills of more than **£100**.

Why choose Joju Solar?

- Joju Solar have been providing bespoke, tailor made solar PV systems to homeowners for over 5 years.
- We only use the highest quality components providing the best quality system for you.
- We are passionate about what we do and have been working with schools and residents across London over the last few years.
